

## ROGER RIGGLE MAKEUP ARTIST AND STYLIST

### “SEMI-PERMANENT MAKEUP FOR WOMEN ON THE GO”

- **If you want your makeup to last all day keep it simple and invest in semi-permanent products.**
- **Use semi-permanent eyeliner on the top lash only and place into the roots of your lashes. A company called Blinc makes an excellent one:**

**Kiss Me Eyeliner**

- **Blinc also makes a semi-permanent mascara that will not bleed or smudge (especially good since you should use an under eye moisturizer before applying concealer) and is easy to remove by holding a warm wash cloth up to the lashes until the mascara slides off in tubes.**

**Kiss Me Mascara**

- **You should also use a semi-permanent lip liner, lipstick and gloss. SeneGence makes all three in many shades. You apply the LinerSense followed by three layers of the LipSense liquid lip color (letting each layer dry) followed by one of their glosses or highlighters which come in matte, glossy or glitter for nights out. You can create your own colors by mixing different layers of shades and they will not come off when you eat or drink.**

## **SeneGence LipSense**

**Roger Riggle is a professional, licensed Washington area makeup artist and stylist who owns and operates Faces By R & R ([www.rogerriggle.com](http://www.rogerriggle.com)), where you can find the products he recommends. Roger does makeup for everything from television to photography to special effects makeup for theater.**
